

Birds of Maine

Appleton Village School Song, Grade 4

**Lyrics by Mrs. Ludwick's class Music by Scot Cannon
copyright 2017**

**Northern flicker,
white throated sparrow.
Likes to bath and drink in,
water that is shallow.**

**Eastern Towhee,
black capped chickadee.
Some birds migrate,
other birds you'll always see.**

**Robins, Eagles,
white breasted nuthatch.
Scavengers eat meat,
others look for fish to catch**

**Nine thousand birds in the world,
Some different, some are the same.
Watch as they glide through the sky,
many of them live in Maine.**

**Some birds live on the ground,
others nest in the trees.
Some birds eat berries and worms,
others insects and seeds.**

**Owls nest in rocks,
Owls live in barns.
Nests in trees are made of
sticks leaves grass and yarn**

**Wish that I could see,
all nine thousand birds.
Maybe I'll just list,
all the birds I've heard.**

**American Goldfinch; Common Loon; Golden-Crowned Kinglet; Purple Martin;
Eastern Bluebird; Northern Shrike; Yellow-Bellied Sapsucker; Peregrine Falcon;
Rose-Breasted Grosbeak; Black-Capped Chickadee**
